Class Description: This early childhood literacy class is designed to help students enhance their listening comprehension, sight word recognition, and phonological awareness. We will read children's versions of Bible stories as well as other engaging picture books in order to help develop their listening comprehension skills and vocabulary. Students will be asked open-ended questions to encourage conversation and critical thinking. This will also foster a deeper understanding of these stories and their moral lessons and will help students enhance their relationship with God.

Wordplay classes will also include various literacy games to develop early reading skills such as gaining letter knowledge, recognizing sight words, breaking words into syllables and rhyming. These skills are interconnected and together will build a strong foundation for students' future reading and writing abilities. This class will make learning fun and engaging, laying a strong foundation for a lifelong love of reading in general, as well as developing an interest in reading God's Word.

Attention PEP parents! Invoices will be provided for all materials and tuition payments, and you will receive a copy of my teaching license as well as a description of the educational benefit of the class.
