Class Description:

This class has been developed to introduce students to beginning skills and tools of woodworking. Students will be introduced to basic woodworking vocabulary, principles of design and elements of basic construction. They will be encouraged to acquire new skills through this activity-based woodshop class.

Woodworking skills will include planning, drawing, measuring, cutting, constructing (hand tools for younger students and supervised power tool usage for teenagers), sanding, painting/staining.

Non-refundable Materials Fee Due per semester on Sign-up
