**Class Description:** Theater Club is being offered to students who are already enrolled in Musical Theater at TFAI for the Fall 2025 semester. This club will be centered around improvisation exercises and ice breaker games to foster confidence, collaboration, and creativity in a low-pressure environment. Theater games and activities are essential for building trust, enhancing focus, and helping students become comfortable performing in front of peers—key foundations for successful group work and stage performance in the future. Students will be given opportunities to take a leadership role in this club by writing and directing skits to be performed by small groups. A suggestion box will be available in the classroom so that members may request activities for the club sessions.

\*Please note that this club will not be putting on a musical theater production at the end of the semester; skits and other club performances will be in-class only.
